**Product keys for Autodesk products**

Product keys are required for installation of Autodesk products and are used to differentiate products that are both sold independently and as part of a product suite. For example, installing AutoCAD 2017 as a point product requires product key 00111, but installing AutoCAD 2017 from the AutoCAD Design Suite Ultimate 2017 requires product key 76911. The same version of AutoCAD is in both software packages but the product key differentiates one package from the other.

**Note:** Please ensure you are using the correct product key for the Autodesk product you are installing. Entering an incorrect product key will result in activation failure.

The product keys for Autodesk 2017 products are as follows:

Product Name	Product Key
Autodesk 1ds Max 2017	12011
